The proposed well set-back is 300ft. so we at least need to know the values at that distance. However, I would also think

Hi,

For easy reference, attached is the latest DWA numbers I have. **Ex. 5 Deliberative Process (DP)**

Ex. 5 Deliberative Process (DP)

since I suspect we need to provide them with a single set of numbers. Right now, the proposed label has 300 ft, and the numbers we provided earlier would pass at 300 ft for all but pH 6. Would we use those numbers?
